Installation Guide: Bicycle Kollektive

Development Team Members

Kenneth Castellano

Bobby Craft

Riley Joinnides

Installation Procedure

Pre-requisites

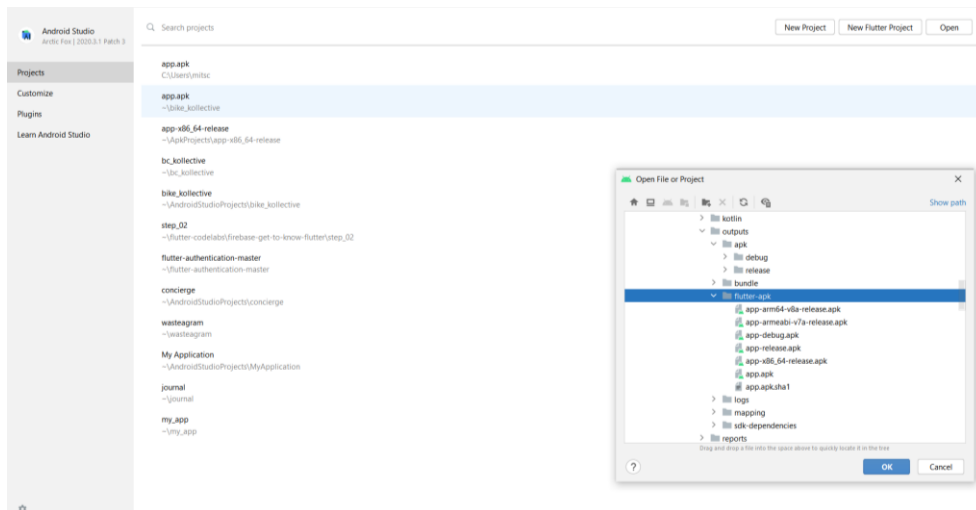

- Android Studio

Purpose

The purpose of this document is to provide the necessary requirements and instructions to install and run the Bike Kollektive app using an Android Emulator.

Installation/Running

1. Install Android Studio, if not installed
2. Save the provided app.apk to your hard drive and note the path
3. Open Android Studio
4. Open the provided project folder
5. Open the “build” folder
6. Open the “app” folder
7. Open the “flutter-apk” folder

8. Open the “app.apk” file and run it in the emulator. Alternatively, you can drag and drop it onto the Android Studio screen
